

Be Bold

Discover the Opportunities

With increasing operational capabilities as a result of its new technology and innovative methods, **CGGVeritas is now looking for Petrophysicists to join our UK and Norway teams.** A Masters of Science is required with a preference for those in Engineering, Geology, Geophysics or Physics. The ideal candidate will have 7-10 years of O&G industry experience and be familiar with:

- Full log interpretation and conditioning
- Industry standard software
- In-depth rock physics

Our focus on performance and passion for innovation are powered by people and delivered with integrity. For more details about this position, visit cggveritas.com/careers.
